

# Appendix A: Survey Questionnaire

---

## Student Perceptions of KIU Internship Support Services

---

This appendix reproduces the questionnaire as it was deployed in Google Forms. The form used section branching so that respondents answered only the questions relevant to their support-service usage. All Likert items used a 1–5 scale where 1 = Strongly disagree and 5 = Strongly agree.

## Google Forms Branching

---

1. Consent was required.
2. Respondents who did not consent were sent to a final thank-you section and the form was submitted.
3. Respondents who consented continued to the main survey.
4. Respondents who had used KIU internship support services saw the support-use details and service-evaluation items (Section 5A).
5. Respondents who had not used the services skipped the service-evaluation items and answered the non-use reason (Section 5B).
6. All consenting respondents answered the internship readiness, improvement priority, and open-ended questions.

Google Forms was configured to accept only one response per account, preventing duplicate submissions. No email addresses or other identifiers were recorded in the exported data.
